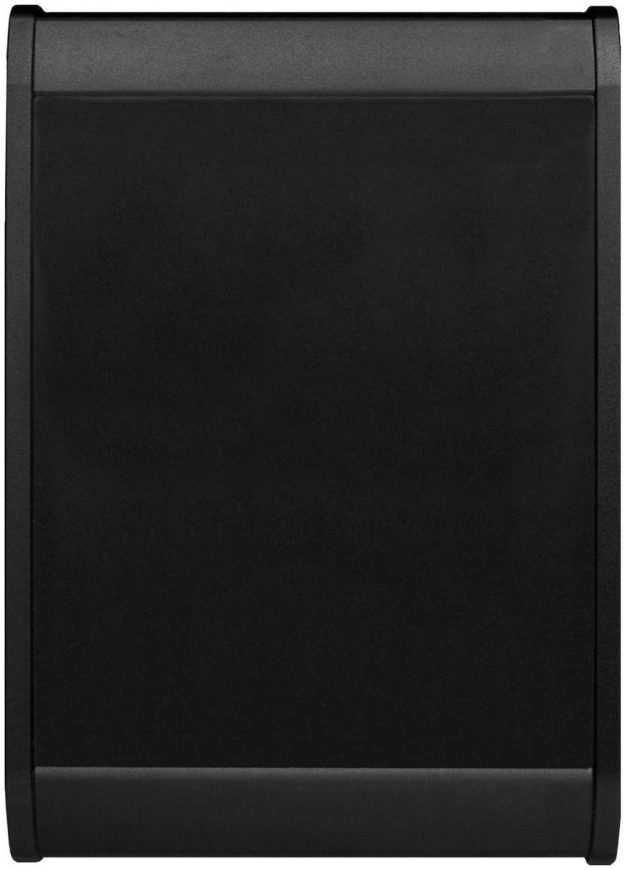
# MKAB - Blank Module Black

Built To Order

*SKAARHOJ MKAB - Blank Module Black*

The MKAB - Blank Module Black is a custom-made solution designed to fill in potential gaps in multi-M/E row scenarios within Mega Panel configurations. Its sleek black finish ensures it blends seamlessly with the surrounding modules, maintaining a cohesive and professional appearance. This blank module is essential for achieving a finished look in your setup, providing stability and continuity across the control surface. Made to order, it allows for a tailored fit to your specific requirements, ensuring that every aspect of your control panel is both functional and aesthetically pleasing.



## Benefits

- Custom-made to fill gaps in multi-M/E row setups
- Sleek black finish for seamless integration
- Ensures a cohesive and professional appearance
- Provides stability and continuity across the control surface
- Tailored fit to specific requirements for a polished setup

## Features

- Blank module to fill empty spots in 2ME MegaPanel designs
- Length tailored to customer's specification
