

Tally Light

Core Product

SKAARHOJ Tally Light - Universal Compact Tally Solution

The SKAARHOJ Tally Light System enhances live video productions by providing clear visual cues to both camera operators and presenters. Featuring dual LEDs, the system offers program and preview indications for the operator and a distinct program signal for the presenter. With two switches, operators can easily control the main LED's power and adjust the brightness of their LED. Designed for versatility, the Tally Light can connect up to 8 units through the Tally Box System, allowing for direct connections or daisy-chaining for streamlined setup and operation.

Benefits

- Dual LEDs offer clear program and preview indications for enhanced communication.
- Adjustable brightness and on/off switch for operator convenience and comfort.
- Supports up to 8 units, facilitating both direct and daisy-chained connections.
- Improves coordination between camera operators and presenters in live productions.
- SKAARHOJ's reliability ensures a seamless integration into any live production setup.

Features

- Compatible with universal and proprietary ethernet tally protocols such as TSL, Blackmagic, Sony
- Up to 8 Skaarhoj tally lamps per Tally Link
- Single cable POE connection between Skaarhoj Tally Lamps and Tally Link
- Option to daisy chain up 3 tally lamps
- Large, Red light on the viewer's side and a smaller red and green light on the operator's side
- Available as Tally Link only or bundled with Tally Lamps
- Ethernet connectivity with Power over Ethernet (PoE) support
- Durable build for professional broadcast environments
- Designed and manufactured in Denmark
