TCP Link for ATEM (BPI)

Expand your ATEM switcher's capabilities with the enhanced TCP Link, featuring the Blue Pill platform for high performance and extended control in sophisticated AV setups.

Expanding on the TCP Link for ATEM, this version integrates the Blue Pill platform for enhanced performance with new ATEM switcher models and extended device control. It maintains all the functionality of its predecessor while offering additional capabilities for complex AV setups. By providing a straightforward TCP interface, it streamlines the integration and control of ATEM switchers within various AV systems, including Crestron and Extron, making it an invaluable tool for AV projects requiring high performance and flexibility.

Benefits

- Leverages the Blue Pill platform for improved performance and extended control.
- Offers a TCP interface for seamless integration with new ATEM switcher models.
- Enhances AV system compatibility with additional control capabilities over devices beyond ATEM switchers.
- Maintains real-time switcher state updates and command forwarding for efficient operation.
- Ideal for advanced AV projects requiring robust switcher integration and management.

Connectivity	
Networking	1G Ethernet w/Power over Ethernet (PoE IEEE802.3af/t)
Power Supply	12V DC Jack 5.5mm x 2.1mm x 10mm Center Positive PoE IEEE802.3af/t
Service Port	Micro USB for setting manual IP
Software	
Platform	Blue Pill (skaarOS Linux), limitations apply.
Licenses	DC Link License Included for TCP Link for ATEM
Physical and Shipping	
In The Box	(This Product) 12V Power Supply: Manufacturer: PHIHONG, Model Name: PSA15R-120P, Output: 12V/1.25A, Cable Length: 1.5m, Adapter type: EU, GB, US, AU depending on shipping country, DC Output Connector: 5.5mm x 2.1mm x 10mm Center Positive Getting Started Guide
Recommended Accessories (not included)	Ethernet Cable: Cat 6 S/FTP or better
Country of Origin	Denmark
EAN Code	5714074003380
